

# 3 SHAPES

## A Sorting Activity

I'm a Canadian Teacher! 

Learning about 3-Dimensional (3-D) shapes is so much fun!

I have included six 3-Dimensional shapes in this activity: cone, cube, cylinder, pyramid, rectangular prism and sphere.

You can use these cards to sort the pictures according to their shape. They also fit a standard pocket chart for a quick and easy centre activity.

I would appreciate if you could take a moment and rate this freebie on TpT.

Be sure to come by my blog for more ideas and freebies!
